SKILLS

JavaScript, React, Redux, Express, Sequelize, Python, Flask, SQLAlchemy, PostgreSQL, HTML5, CSS3, Git

PROJECTS

ReserveTable

[Live Site](#) | [Github](#)

A full stack application clone of the OpenTable website.

- Developed a clone of the OpenTable website with 2 full CRUD features: Reservations, Reviews.
- Utilized JavaScript, Python, Flask, React, Redux, SQLAlchemy, SQLite, HTML, CSS.
- Deployed to Render with a PostgreSQL database.

Ayrbnb

[Live Site](#) | [Github](#)

A full stack application clone of the Airbnb website using JavaScript, Express, Sequelize, SQLite, Postgres, HTML, CSS.

- Developed a clone of the Airbnb website with 3 full CRUD features: Spots, Reviews, Bookings.
- Utilized JavaScript, Express, Sequelize, React/Redux, SQLite, HTML, CSS.
- Deployed to Heroku along with a Postgres Database.

CodeBunny

[Live Site](#) | [Github](#)

A full stack application clone inspired by the TaskRabbit website.

- Developed a clone inspired by the TaskRabbit website where users can hire coders for projects based on skills that match project needs.
- Worked alongside 3 other developers to implement 4 CRUD features: Coders, Reviews, Projects, Searchbar.
- Utilized JavaScript, Python, Flask, React, Redux, SQLAlchemy, SQLite, HTML, CSS.
- Deployed to Render with a PostgreSQL database.

EXPERIENCE

Pharmacy Informatics - Systems Analyst

Kaiser Permanente (contract), Oct 2015 - May 2016

- Provided technical support and training to pharmacy personnel at pharmacy locations nationwide.
- Analyzed and resolved software, hardware, and network computing problems experienced by end users.
- Utilized an IT ticketing system (Remedy) to document each incident.
- Properly escalated high incidents to a national service desk.

Pharmacy Technician

Pride Medical, Inc., July 2014 - May 2015

- Initiated prior authorizations (ePA's) using diagnostic codes (ICD-9 & ICD-10)
- Prepared IV and IVIG medications for the onsite IV suite.
- Authorized prescription refills electronically with prescriber approval
- Generated weekly Georgia Prescription Drug Monitoring Program reports
- Adjudicated rejected insurance claims.
- Typed letters of medical necessity to insurance providers.
- Adjusted daily purchase orders to maintain proper inventory of all medications and supplies.
- Performed monthly and annual inventories of all medication including scheduled/controlled medications.

EDUCATION

App Academy - Immersive software development course with focus on full stack web development (May 2022 - Dec 2022)

Georgia State University - *Biology* (2005 - 2008)
